Onderwerp: graag snel overmaken!

Urgentie: Hoog

Roy,

Ik weet dat je eigenlijk een factuur nodig hebt natuurlijk. Maar het gaat om een zeer interessant project in samenwerking met Justitie, Europol en een grote Europese universiteit. Heel prestigieus. Het moet nog even absoluut geheim blijven. Daarom kom ik er ook mee bij jou. Je hebt je tot nu toe altijd heel discreet gedragen. Die factuur is onderweg maar moet uit Slowakije komen en is niet op tijd bij je. De betaling moet echt vandaag gebeuren anders gaan we over strikte deadlines heen en komt het hele project tot stilstand. Dat kan en mag niet gebeuren.

Graag 35.000 overmaken ovv Fraudeproject naar SK31120664ART9836547541

Het moet wel voor 13:30 uur overgemaakt worden, dan is het vandaag verwerkt en blijven we binnen de deadline. We kunnen dan echt een grote stap maken als organisatie. Daar worden we allemaal beter van. Ik reken op je!

Met vriendelijke groet,

Sheryda I. Bijlhout

CEO Bigbusiness

Met vriendelijke groet,

Kvk Kamer Van Koophandel

State of Email Security 2023

Cyber Risk Commands the C-suite's

FOCUS

Email

Email usage continues to rise at **86%** of companies

68% have experienced an increase in email-based threats

92

Cyberattacks

2/3 say cyberattacks are growing increasingly sophisticated

52% were harmed by a ransomware attack

92% have been targeted by email-based phishing attacks

50% saw an increase in attempts to misappropriate their email domain

93% are using DMARC or plan to use it to thwart email spoofing and encouragingly **38%** have already deployed it

Cyber Awareness

52% said insufficient employee awareness of cyber threats would be their organisation's biggest security challenge in 2023

8/10 believe their company is at risk due to inadvertent data leaks by careless or negligent employees

Monitoring

97% either have a system to monitor and protect against email-borne threats or are actively planning to roll one out

Collaboration Tools

93% are either using or plan to use AI and machine learning to bolster their cybersecurity

70% collaboration tools are posing significant new security risks

61% expect to be harmed by a collaboration-tool-based attack

94% think they need stronger protections than those that come with their Microsoft 365 and Google Workspace applications

Budget

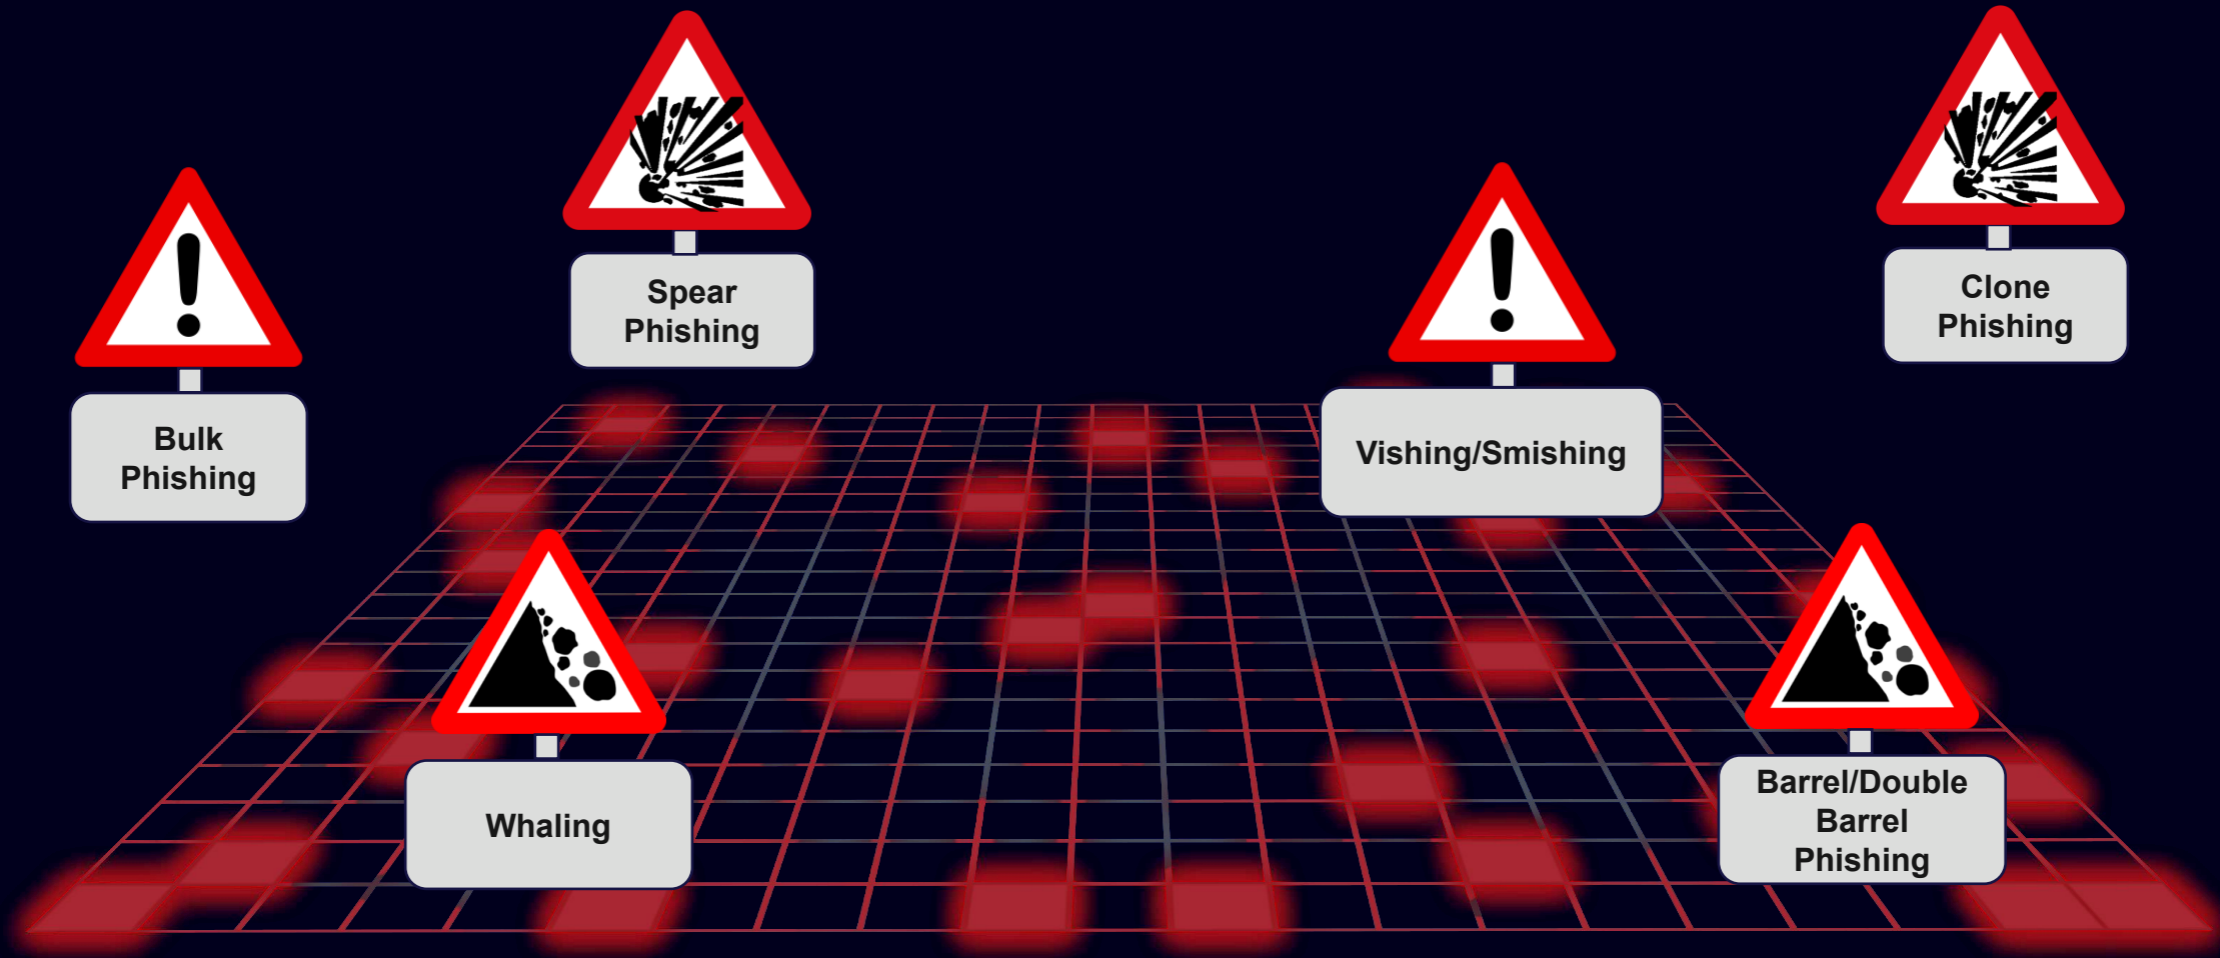

72% need to spend an average of **13.5%** more on cybersecurity - the highest percentage globally

Hi Sander,

I'm building a new presentation for the Cyber Security event. I will send you a link to review the presentation!
